Ray & Nancy Hodge Elementary, 3:45 - 4:45
Seckman Elementary, 3:05 - 4:05
Richard Simpson Elementary, 3:05 - 4:05

Bricks 4 Kidz Early Engineers is a hands-on class where students build machines, buildings, vehicles, and other structures out of motorized, LEGO bricks. While exploring principles of engineering, physics, life sciences, and more, students will develop problem solving and critical thinking skills. Participants build a new project each week, and each class begins with a teacher-led discussion related to the day's model and the science behind it. We have models of varying degrees of difficulty to accommodate the age range of the class, grades K-5. This session will feature all new models and science lessons!

6 weeks, \$89
